Important Questions	Answers	Why This Matters:
What is the overall deductible ?	In-network - \$3,000 person \$6,000 family Out-of-network - \$5,000 person \$10,000 family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of the deductible expenses paid by all family members meets the overall family deductible .
Are there services covered before you meet your deductible ?	Yes. There is no deductible for preventive care or to any office services which have co-payments .	This plan covers some items and services even if you haven't yet met the deductible amount. But a co-payment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet deductible for specific services.
What is the out-of-pocket limit for this plan ?	In-network - \$5,000 person \$10,000 family Out-of-network - \$7,000 person \$14,000 family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?	Premiums , balance-billed charges, penalties and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. Visit www.mycigna.com to find providers in the Cigna network.	You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing).
Do you need a referral to see a specialist ?	No	You can see the specialist you choose without a referral.
