

10 Reasons

To Offer Clients The Secure Plans

- 1. Employer Refunds:**

With fully insured plans, insurance carriers keep the savings when claims are less than expected. With self-funding, employers do. Stop-loss coverage steps in if claims exceed expectations. Heads your clients win. Tails they don't lose.
- 2. All the Refund - As In 100%:**

Claim funds are your clients' money. If any is to be refunded, it should go to them. All of it. Unlike others, we don't charge fees or require they renew with us. We just deliver 100% of their claims refund. It's only fair.
- 3. Refund Assisters[®]:**

Other self-funded programs offer claims fund surplus refunds. Our telemedicine and wellness programs help deliver them.
- 4. Safe:**

Your clients enjoy experienced administrative services from The Loomis Company plus the security of Best-rated "A" (Superior) stop-loss carriers.
- 5. Simple:**

We make things easy. Nine quality plans. Reference Based Pricing. One pharmacy network. One contract period. Think of it as self-funding with training wheels.
- 6. Reference Based Pricing:**

Save your clients money and do away with networks. Using RBP, provider payments are fixed as a percentage of what Medicare pays greatly reducing premiums.
- 7. Patient Support:**

RBP saves employers money. The Secure Plans' patient advocacy and education programs minimize and avoid employee's balance billing issues. It's RBP that's, well, secure.
- 8. Optional Networks:**

Your client isn't ready to go full RBP? The Secure Plans offers a nationwide PPO network through Cigna. Or keep RBP for facilities, but offer a network of doctors who have agreed to accept RBP pricing for their services. The choice is yours.
- 9. Multi-State Friendly:**

Have clients with employees in multiple states? Now they can offer the same plan nationwide. The Secure Plan.
- 10. Online Enrollment:**

Employees can save time and hassle by completing their enrollment forms online using FormFire or EasyAppsOnline. Of course, we have PDFs, too.
